EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Lebovitz on March 19, 2004.

The application has been amended as follows:

In claims 1, 2 and 3 delete "a complement thereto" and substitute therefor - - -the complement thereof- - -; in claim 5 delete "SEQ ID NO 1" and substitute therefor - - - SEQ ID NO 2- - -; in claim 18 add the words "in vitro" after "mammalian cell"; cancel claims 7-11, 14, 15 and 19-21.

2. The following is an examiner's statement of reasons for allowance: The prior art neither teaches nor suggests a polynucleotide having SEQ ID No. 1. The closest prior art is Meins et al. who apparently had a portion of the Tbx20 gene but stated that the exons downstream of the five exons they had identified as TBX20 were not a legitimate component of the TBX20 mRNA. They never had a complete stretch of DNA containing the entire TBX20 gene.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert A. Wax whose telephone number is (571) 272-0623. The examiner can normally be reached on Monday through Friday, between 9:00 AM and 5:30 PM.
